

Summary of Land Management Plan Proposals

Bellamore LMP is an acquisition of former agricultural holding which will provide an important native woodland area, priority open habitat and some areas for productive conifer. Water quality issues, conservation and archaeology have also influenced the design of the forest.

| | |
|----------------------------------|-----------|
| Plantation area | 207.45 ha |
| External Open ground area | 275.90 ha |
| Total Plan area | 483.35 ha |

| Species breakdown | 2019 (current) | 2029 (end plan) |
|---|----------------|-----------------|
| Primary species: Sitka Spruce | 0% | 25% |
| Secondary species: Native broadleaf | 0% | 16% |
| Other broadleaf | 0% | 2% |
| Open space | 100% | 57% |

| Planned Operations | 2019–2029 plan period |
|--------------------|-----------------------|
| felling | 0ha |
| thinning | 0ha |
| planting | 207.45ha |
| road construction | 2500m |
| road upgrade | 1700m |

| Significant Environment / Conservation Features | |
|--|-----------------|
| Designated sites | Docherniel LEPO |
| Minimum Intervention / Natural Reserve / Long Term Retention | 18% |

Critical Success Factors:

- Creation of a wide riparian corridor forming a valuable link to toher surrounding habitats

Forestry and
Land Scotland
Coilltearachd agus
Fearann Alba

- Plantation of areas with productive conifer
- Protection of open habitat
- Completed construction of proposed new roads
